OUR PRODUCTS

1 LAMINATE FLOOR

Laminate flooring is not actually real flooring but looks like it, with the appearance being provided by a photographic image of wood. This is placed on top of a core High Density Board (HDF) made of compressed fibres and the material is covered in a melamine wear layer, which is what gives laminate flooring its famed toughness.

2 SOLID AND ENGINEERING WOOD FLOORS

ENGINEERED FLOORING

Laminate flooring is not actually real flooring but looks like it, with the appearance being provided by a photographic image of wood. This is placed on top of a core High Density Board (HDF) made of compressed fibres and the material is covered in a melamine wear layer, which is what gives laminate flooring its famed toughness.

SOLID WOOD FLOORING

Solid wood flooring brings the natural outdoors inside and is ideal for those who want the warmth and beauty of a real wood floor. As it is a natural product every hardwood floor installed will be individual and different from the next.

3 HOSPITAL FLOORS

HOSPITAL FLOORING FROM GERFLOR

GERFLOR With Over 50 years of experience in the health Care market and more than 32 million square metres installed through out the world. GERFLOR range is internationally acclaimed to meet your needs. GERFLOR guarantees you top performance flooring ideally suited to your specific requirement.

4 DECK FLOORING

As outdoor living becomes a rapidly growing lifestyle phenomenon, outdoor flooring is emerging as an intimate element of outdoor living. You are almost always in contact with it. Consequently, you ask a lot from it. There are so many reasons to love EGO Deck Tiles.

5

8

VINYL, PVC FLOORS, CUSHION MAT

PVC PLANKS

Everyone loves the look of Laminatd / hardwood floors. Wood flooring warms up even the coldest basement, and creates a cozy feeling in any room's interior design. Unfortunately, laminated / hardwood floors can be bit expensive. The installation process itself requires a professional for quality results.

9

CARPET

TREND NON WOVEN SYNTHETIC CARPET

Non woven synthetic carpets synthetic are machine weaved carpets with a silk feel. They may be designed and patterned in the same way as a silk carpet and present the same aesthetic values. They may be finely knotted with 250 or more knots per square inch. For the purpose of making these carpets, six types of synthetic yarns may be used: Nylon, Polypropylene (Olefin), Polyester, Acrylic

10
